The Bucks and Montgomery County Schools Healthcare Consortium provides a wide variety of plans and programs to its participating school entities and their members. The plans provide options to meet the needs of individual employees and their families.

For example, medical plans as well as prescription drug benefits vary by district. Your benefit coordinator or HR representative will provide you with those important details. There are other plans and programs that might be offered by your individual district.

The BMCS website has information to help you contact the person who helps administer your benefits program.

Visit https://bmshc.org/contacts or scan the QR code to go directly to that webpage.

Welcome to Your 2025-2026 Benefits Guide!

On behalf of the Bucks and Montgomery County Schools Healthcare Consortium, thank you for the important work that you do in our public schools. We value your important contributions to our students, communities, and colleagues.

Please use this guide as a roadmap of support for using the medical and prescription drug benefits available through our consortium. It will help you understand common healthcare vocabulary, the designs of each of our four medical plans, and a host of other supports to help you navigate the complexities of our healthcare system and receive excellent care.

If you have questions about any of the features of our plans or services, please utilize the telephone numbers listed in this guide or contact a member of your HR department.

Best wishes for a safe and healthy school year!

Rebecca Roberts-Malamis and Bill Senavaitis

Chair and Vice Chair of the Bucks and Montgomery County Schools Healthcare Consortium

Bucks and Montgomery County Schools Healthcare Consortium appreciates your commitment to our success. We're equally committed to providing you with competitive, affordable health and wellness benefits to help you take care of yourself and your family.

Please read this guide carefully. It summarizes your plan options and provides helpful tips for getting the most value from your benefit plans. We understand that you may have questions about annual enrollment, and we'll do our best to help you understand your options and guide you through the process.

This guide is not your only resource, of course. Anytime you have questions about benefits or the enrollment process, you can contact your human resources representative. Although this guide contains an overview of benefits, for complete information about the plans available to you, please see the summary plan description (SPD).

Basic Terms

Coinsurance

Coinsurance is your share of the costs of a covered healthcare service, calculated as a percent (for example, 20%) of the allowed amount for the service. Your coinsurance will begin after you have met your deductible. For example, if the health plan's allowed amount for an office visit is \$100 and you've met your deductible, your coinsurance payment of 20% would be \$20. The health plan pays the rest of the allowed amount.

Copay

A copay is a fixed dollar amount you pay for a healthcare service. The amount can vary by the type of service. Your copays will not count toward your deductible but will count toward your out-of-pocket maximum.

Deductible

The deductible is the amount you owe for covered healthcare services before your plan begins to pay benefits. For example, if your deductible is \$1,100, your plan won't pay anything until you've met your \$1,100 deductible for covered healthcare services subject to the deductible. Preventive care is not subject to the deductible as it is covered 100% by any medical plan option.

Explanation of Benefits (EOB)

An EOB is a statement from the insurance company showing how claims were processed. The EOB tells you what portion of the claim was paid to the healthcare provider and what portion of the payment, if any, you are responsible for.

In-Network VS. Out-Of-Network

A network is composed of all contracted providers. Networks request providers to participate in their network, and in return, providers agree to offer discounted services to their patients. If you pick an out-of-network provider, your costs will be higher because you will not receive the discounts the innetwork providers offer.

Additionally, you will incur higher deductibles and out-of-pocket maximums when you select to receive services from an Out-of-Network provider."

Out-Of-Pocket Maximum

The out-of-pocket maximum is designed to protect you in the event of a catastrophic illness or injury. Your out-of-pocket maximum includes your deductible, coinsurance and copays that come out of your pocket. After you have paid the specified out-of-pocket amount during a policy year, the plan pays the remaining covered services at 100%.

Preventive Care

Routine healthcare services can minimize the risk of certain illnesses or chronic conditions. Examples of preventive care services include but are not limited to physical exams, mammograms, flu vaccines, prostate tests and smoking cessation.

Reasonable and Customary

The amount of money a health plan determines is the normal or acceptable range of charges for a specific health-related service or medical procedure. If your healthcare provider submits higher charges than what the health plan considers normal or acceptable, you may have to pay the difference.

Aetna Health App

You're in charge

Staying healthy is important. So is keeping track of your benefits. But with everything else you have going on, managing it all can be a challenge.

The Aetna Health app can help. The app is your all-in-one resource for the information you need, from finding a doctor and comparing costs to paying claims and viewing your ID card.

See for yourself how the Aetna Health app can make it easier to manage your benefits.

View benefits and pay claims for your whole family

- Search for providers, procedures and medications
- Locate an in-network urgent care facility
- Get cost estimates before you get care
- Track spending and progress toward meeting your deductible
- Access your member ID card whenever you need it

Wellness

The following programs are included in the BMCS Health Care Consortium medical plans through Aetna. These resources will assist you in taking a more direct and active role in successfully managing your most important asset — your health!

Weight Management

A comprehensive weight management solution based off of a health assessment to provide recommended programs

available to you. You may also choose a different program than the recommended program and switch anytime.

Mental Health

Mental/Emotional Health (AbleTo): Behavioral health program that provides support if you have experienced health conditions or life changes, such as infertility, health issues, postpartum depression, grief, loss, and many more.

Emotional Health (MindCheck): Online tools to help you manage your emotional health and factors like stress and anxiety.

Mindfulness (Headspace): Meditation made simple, your personal guide to mindfulness and a restful night's sleep.

Physical Wellness

Back & Joint Care (Hinge Health): Hinge Health is a digital exercise therapy program that can help relieve joint and muscle pain. Members receive real-time exercise therapy guidance virtually.

Fitness (HUSK): Find local gyms, virtual subscriptions, products, nutritionists, mental health and physical therapy at discounted rates. You must register, enter your insurance information and check your zip code if applicable for the discount.

Health Coaching (Journeys): A digital health coach who works with you based off your health assessment results to create a personalized journey for you to embark on at your own pace.

Preventive Care

Virtual (Informed HealthLine): 24-hour information line for your health questions and talk to a registered nurse anytime.

Virtual (Teladoc): Gives access to you 24 hours, 7 days a week to a U.S. board certified doctor and therapist through the convenience of phone, video or mobile app.

In-Person (CVS HealthHUB): Local health care destination that offers convenient and affordable care that you may need to help you feel your best.

Virtual In-Person (CVS MinuteClinic): Convenient and reliable care when you need it the most. The MinuteClinic is open every day, including evenings for both walk-in and scheduled appointments.

Preventive/Age Gender Appropriate Screenings: Preventive age/gender appropriate screenings often include annual physical and biometric screenings but are not limited to age-gender-specific screenings. Recommended screenings are based on your age and gender. These are often scheduled with your primary care provider.

Urgent Care

Urgent Care: An urgent, not life-threatening medical issue place to be seen when your primary care provider is unavailable, or you do not have a primary care provider established.

Cost Estimator: Gives access to cost-sharing liability for covered items or services.

Know Before You Go: A comparison of what is available to you through the benefits from virtual care to emergency room visits.

Cancer Support

Transform Oncology: Resources for your cancer journey. A cancer diagnosis is life changing. You probably have a million things on your mind as you navigate your treatment. Aetna® is here for you with the resources and support you may need to manage your care, understand your benefits, and locate the right providers.

Aetna Urgent Care

Feeling fluish? Have a pounding headache? Hurt your back carrying the groceries? Don't spend more time and money than needed at the emergency room (ER). Consider visiting an urgent care center instead to help you feel better sooner.

Plenty of services

Urgent care centers offer care for serious medical matters that aren't life threatening. They also handle vaccinations and treat:

- · Sprains and minor fractures
- Cuts that require stitches
- Bronchitis
- Lower back pain
- Headaches and more

Finding care near you is easy:

- 1. Log in or register at aetna.com
- 2. Click on "Find Care."
- 3. Select "Urgent Care."
- Scroll down and select "Urgent Care Facilities."

Locate an in-network lab

Quest Diagnostics and LabCorp are Aetna's national preferred labs. These labs, along with their national and specialized affiliates, offer a wide range of testing services. Patients can get everything from routine blood tests to gene-based cardiology to molecular testing.

Stay in the network and pay less! You can save on out-of-pocket costs when you get lab work done in Aetna's network. Below is an example of how in-network costs compare to out-of-network costs using the Open Choice 1 plan:*

	Quest Diagnostics and LabCorp	Out-of-Network
Lab test price	\$30	\$300
Patient's Coinsurance	0%	30%
Patent Pays	\$0	\$90

^{*}These prices reflect an example of a routine lab test.

You can see a complete list on Aetna.com by using our provider search tool.

Informed Health® Line

A 24-hour information line for your health questions, talk to a registered nurse anytime.

With the Informed Health Line, you can speak to a registered nurse about health issues — whenever you need to.

Plus — it's toll-free, you can call as many times as you need (at no extra cost), and your covered family members can use it, too!

You can:

- Get information on a wide range of health and wellness topics
- Make better health care decisions
- Find out more about a medical test or procedure
- Get help preparing for a visit to your doctor
- Receive emails with links to videos that relate to your question or topic

MinuteClinic®

The time for a solution that gives people more options to take control of their health and get the care they need — on their terms — is now.

Care that's convenient and reliable

MinuteClinic® makes it easy for you to get the care you need, when and where you need it. You can get access to all covered MinuteClinic services at no cost — not just preventive care.

- MinuteClinic is a walk-in clinic inside select CVS Pharmacy® and Target stores and is the largest provider of retail health care in the United States
